List of Figures

i Working draft

Submission: a PDF upload to Canvas, due **13 Nov 2026, 23:59 CET**. Late work is not accepted.

Render with `quarto render Report-Data-Protection.qmd`.

Limits: max **3000 words excluding footnotes**, footnotes only (no endnotes), and footnotes must not carry text that belongs in the body.

Citing: every legal source goes in a footnote, citing the bibliography inside it, for example [^][GDPR, art 6(1)(f)]. Add each new source to `references.bib`.

Ownership: see `../Task division.md`. Person A: Section 1. Person B: Section 2. Person C: Section 3. Section 4: each writes their own advice share, then the conclusion is settled together. Remove this callout before the final render.

Group No: 16

Names and student numbers:

Name	Student number

Total word count (Sections 1 to 4, excluding footnotes): []

1 Introduction and Description

400 to 600 words. Owner: Person A.

1.1 The project

What Business Monitor is and does: the training, the surveys, and what managers get to see.

1.2 Personal data processed

Which personal data are processed, from whom, at which stage.

1.3 Special categories of data

Whether any survey data fall under Article 9, and why or why not.

1.4 Actors and their roles

Data subjects, controller, processor(s), with the reasoning for each controller or processor determination.

2 How Are the Data Processed?

300 to 600 words. Owner: Person B.

2.1 Purpose of the processing

The stated purpose, assessed against purpose limitation.

2.2 Application of the data protection principles

2.2.1 Purpose limitation

2.2.2 Data minimisation

2.2.3 Accuracy

2.2.4 Storage limitation

2.2.5 Integrity and confidentiality

2.2.6 Accountability

3 On Which Legal Basis?

800 to 1000 words. Owner: Person C.

3.1 The processing ground relied on

Which Article 6 ground applies, and Article 9 if Section 1 found special categories.

3.2 Application of its criteria

Each criterion of that ground applied to the project facts.

3.3 Problems with relying on this ground

Where the ground is weak, and which alternative ground could apply.

4 Advice

500 to 800 words. Each person writes their own share; the conclusion is written together.

4.1 Alternatives to personal data

Person A. Anonymisation, pseudonymisation, or using non-personal data instead.

4.2 Technical and organisational measures

Person B. Security, retention periods, records of processing, DPIA, data protection by design.

4.3 Conclusion on compliance

Person C, settled jointly. Is the project GDPR compliant, and what is the way forward.

Technology Statement

During the preparation of this work, we used [NAME TOOL / SERVICE / VERSION OF AI TOOL] in order to [REASON]. The following parts of the assignment were affected/generated by AI tool usage: [SECTIONS]. After using this tool/service, [NAME STUDENT(S)] evaluated the validity of the tool's outputs, including the sources that generative AI tools have used, and edited the content as needed. As a consequence, [NAME STUDENT(S)] take(s) full responsibility for the content of their work.
